

EDGE

EDGE LYNX

Compact Hot/Steam Pressure Cleaner

Economical and Easy to Operate

Quality Features - Realistic Price

The New EDGE LYNX, a compact and powerful hot water pressure cleaner.

If you require a small, strong machine for cleaning tasks around the garage, valeting bay or factory, then look no further.

There are two models in the range. The **1110ST** is an economical hot water machine, ideal for car washing and light cleaning duties. It has a powerful pump and an efficient boiler that produces lots of hot, high pressure water.

Extra equipment on the **138DS** model includes a slow speed pump and motor unit, internal water tank, water softener system, automatic start/stop, leak detection system and the ability to produce steam. This model is suitable for heavier tasks such as commercial car valeting or small plant cleaning.

A Square Deal All Round

The Decisive Advantages

- **Appearance** Compact robust design.
- **Convenience** Easy to use controls.
- **Economical** Automatic Start/Stop on 138DS. Highly efficient oil burner.
- **Flexibility** Hot or cold water at variable pressure. Accessories available for special cleaning tasks.
- **Manoeuvrability** Two large wheels & lockable castor.
- **Reliability** Only the finest materials are used to ensure long term reliability.
- **Safety** Motor overload protection. CE certified.
- **Operator Friendly** Easy connection & simple controls.
- **Technology** Micro processor control system.

The economical EDGE Lynx range has many advanced features.

The **1110ST** has a total stop system that switches the pump off if it is left running and unattended for more than 3 minutes.

The higher specification **138DS** protects itself by switching off if a leak is detected in the high-pressure hose. The pump will also automatically start and stop as the lance trigger is pressed or released. It has a heavy-duty pump normally only found in larger, more expensive machines.

Advanced Design Combined with Latest Features

Brass Pump Head

Serviceability

Integral water tank with softener (138DS only)

Options for Versatility

The Lynx machines are supported by a comprehensive range of accessories including rotary brushes, foam spray lances, wet sandblasters, short lances and extension lances.

The machine can be used with additional high pressure hoses if required.

Simple controls
