

EDGE

EDGE WILDCAT

Compact Hot/Steam Pressure Cleaners

Economical and Easy to Operate

Advanced Features - Realistic Price

The Edge Wildcat is the most technically advanced hot water / steam machine on the market.

Its packed with quality features such as a slow speed pump and motor unit.

A micro processor control system allows beneficial features such as leak detection and total stop.

Low level fuel and chemical sensors prevent unnecessary breakdowns by not allowing damage to occur if fuel or chemicals run out.

A washer packed with features and a high cleaning effect.

A Square Deal All Round

The Decisive Advantages

- **Appearance** Stylish Corrosion Proof Robust Casing
- **Convenience** Centrally Located ,Easy to use Controls and Integral Tank
- **Economical** Automatic Start/Stop -Leak detection Feature
- **Flexibility** High Pressure hot water with steam Facility
- **Manoeuvrability** lockable swivel wheel
- **Reliability** Cranked slow speed Pump with Ceramic Pistons
- **Total Stop** machine shuts off completely if not used For 20 minutes
- **Safety** Pump Motor has Full Overload Protection
- **Operator Friendly** Quick release gun & lance assembly.
- **Technology** Low level Water Softener fuel & Chemical sensors
- **Versatility** Temperature Adjustment 0 to 140°C

Designed to be technically advanced but at a realistic price.

The Wildcat range of machines has features not available on more expensive competitors machines.

The leak detection feature will stop the machine if a leaking gun causes the machine to restart on standby 6 times within a 20 minute period.

The total stop feature will automatically switch the machine off if it has not been restarted in standby mode for 20 minutes.

This prevents the machine starting up if it is on standby overnight or when left unattended.

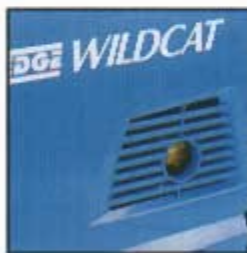

Options for Versatility

The versatility of the Edge Wildcat series is supported by a comprehensive range of accessories including: Rotating Brushes, Wash Brushes, Foam Equipment, Wet Sandblasting, Drain Nozzles, Turbo Lances and Extension Lances. Together these guarantee the optimum solution to all cleaning jobs.

Advanced Design Combined with Latest Features

Optional Hose Reel

Visible pump oil check

Simple to use controls
